NEW EXCHANGE  
IS PROBABLE

GOVERNMENT LIKELY TO INSTALL  
A TELEPHONE SERVICE.

NEGOIATIONS OPENED

Government Will May Present System  
Office is Recommended. Otherwise Will  
Put in Another Exchange. Work Re-  
duces Charges and be Economic Bene-  
fits.

The prospects are very bright that The Pass is going to be especially favored in the matter of telephone service. The government is building a long distance line to the district, there is a prospect that a telephone line—was related last week—will be built from the west giving a through service for the whole Crows Nest Pass and now there is a strong likelihood that the government will enlarge on its original program for The Pass by putting in a thoroughly up-to-date exchange to serve the whole district.

When the government first decided to give the district a long distance service it was recognized that connection should be made with the local exchange. As the government does not care to run local exchanges where it can be avoided, the opportunity was given the local company of installing an up-to-date system and connecting with the long distance line or of selling to the government. As modernizing the old exchange meant quite a heavy outlay in duplicating the company's system of wires a selling preference was indicated and the government signified its willingness to consider an offer. An offer was made but the figure asked was far too high, much more than the plant was worth and the offer was turned down.

The FRANK PAPER is now in a position to state authoritatively that if the government is unable to buy the old plant for what it is worth it will be only a matter of a short time before an independent exchange will be installed. If the government gets the old system, it will be modernized and made the best that is known to date in the way of telephone service and that will be installed if the government is obliged to put in an independent exchange.

With the government operating the exchange the price of telephones will be greatly reduced. The government price will not exceed \$20 for residence phones and \$28 for business and may not be more than fifteen and twenty-four and with the improved service, the listening of one person to another's conversation and other disagreeable features eliminated, it is easy to see what a benefit would accrue to the community from having the system operated by the government.

What will in all probability be the last big round-up of cattle that is to be held on the continent of America will assemble at Lethbridge on June 1st to gather up the cattle that strayed from Alberta canoes during the late winter. This will mark the passing of the cowboy in Alberta, his place having been taken by the mixed farmer and small rancher.

Howell Harris, who has been identified with the cattle industry in Southern Alberta since the early '70s in his management of the L. G. Baker and Co.'s and Conrad Bros. ranches for the last twelve years, made the above statement to the Alberta Star. In the round-up that will assemble at Lethbridge there will be eight outfit, each with from sixteen to twenty men who will make a thorough search of the country and will assemble the cattle at the Lethbridge round-up.

They will meet the round-up from Montana along the Milk River and make exchanges of cattle. The practice of selling the mavericks to pay the expenses of the round-up has been giving the past few years a bad name and these are returned to their owners as soon as they can give sufficient proof of their ownership. Mr. Harris says that the Montana ranchers have acted in a very kindly spirit in regard to cattle straying across the line from Alberta and have fed and sheltered them during this time saving them from perishing.

The government coal commission recently appointed to inquire into the coal mining industry, held its first sitting at Lethbridge Tuesday and mapped out its program. Yesterday the real work of the investigation commenced. It is expected this week will be occupied by the Lethbridge and Taber end of the work and that the commission will come to Frank next week. Witnesses from Frank, Lillooet, Bellows, Hinter and Lethbridge will be examined here and later a session will be held at Coleman. It is expected that about three weeks will be consumed in the taking of testimony.

COLEMAN NEWS

The Coleman Board of Trade was

organized last week with a determination on the part of the members to pursue an aggressive campaign in the interest of Coleman's advancement. The new officers elected are: President, O. W. Benedict; first vice president, Rev. T. M. Murray; second vice president, J. M. O'Driscoll; secretary, George E. Ewing; treasurer, Alex Cameron. The board held another meeting Monday evening to elect an executive committee and to discuss the advisability of incorporating.

The Coleman fire brigade is putting in some goodlicks these days at practice and will be prepared to give the Frank boys a hot contest if arrangements for competitions are made as is expected will be the case. Monday the team ran the regulation hundred yards, laid 150 feet of hose, broke a coupling and had a stream on in exactly 32 seconds. Considering that 37, 2-5 took the money at the Calgary sports, it is obvious the Coleman boys can go some.

Coleman is to hold her first celebration Dominion Day and the plans are for a big affair. The details of the scheme have not been worked out as yet but the celebration will be under the auspices of the Eagles and the board of trade and the village will participate. It is stated that the Eagles have raised \$1000 and that the board of trade and citizens will raise another thousand. Committees now have the work of formulating a program in hand.

President A. C. Flumerfelt of the International Coal & Coke company of Coleman and the Alberta Coal company of Lethbridge, spent Saturday and Sunday in Coleman. He left with Mr. Gater Sunday evening to inspect the Alberta company's property at Lethbridge and from there went east to attend the annual meeting of the Eastern Townships bank of which he is a director.

J. F. Povah spent several days at Spokan this week.

The Coleman Lawn Tennis club reorganized last week with A. C. Flumerfelt honorary president, H. N. Gater, president; J. F. Povah, secretary-treasurer and H. W. F. Pollok, manager. The club is in good condition this year and expects to arrange a number of competitions; it also expects to win them.

The Rev. T. M. Murray leaves this evening for Lethbridge to be absent six weeks. He will relieve the Rev. A. M. Gordon while the latter is on vacation. The Rev. Munroes of King ston relieves Mr. Murray.

International Coal and Coke company stock has reached the highest point attained for the shares so far, the prices running from 67, 3-4 to 70c on the Spokane market.

The junior football team defeated the Lethbridge lads Saturday by a score of 5 to 1.

Mr. Westwood has returned from an extended visit to Europe. His daughters are still in France.

A boy baby was born Monday to the wife of Edward Holmes.

J. B. Wilkie made a business trip to Calgary the first of the week.

COAL COMMISSION BEGINS WORK

The government coal commission recently appointed to inquire into the coal mining industry, held its first sitting at Lethbridge Tuesday and mapped out its program. Yesterday the real work of the investigation commenced.

It is expected this week will be occupied by the Lethbridge and Taber end of the work and that the commission will come to Frank next week. Witnesses from Frank, Lillooet, Bellows, Hinter and Lethbridge will be examined here and later a session will be held at Coleman. It is expected that about three weeks will be consumed in the taking of testimony.

TO ASK TOWN  
FOR A BONUS

CEMENT COMPANY WANTS CONCESSIONS BEFORE LOCATING HERE

ASKS TAX EXEMPTION

Representatives of Company to Appear Before Board of Trade Monday Evening to Make Medicine Tail—Is Most Important and Everybody Should be There.

The property owners of Frank are to be asked to grant concessions to the Rocky Mountain Cement company in consideration of the company establishing its proposed cement works here.

The proposition dropped up yesterday when Vice President W. J. Budd and Secretary W. B. Reilly of the company visited Frank. These officials laid their proposals before Oversee Farmer and asked for a meeting of the townpeople to consider them.

The company asks for free water for a period of years, for exemption from taxation for a period of years, that a sidewalk be built to the works and for a bonus of \$5000. These at least are the proposals as outlined to Oversee Farmer.

After consideration of the matter it was concluded that the best way to deal with the question was to bring it before the board of trade first as the membership of that body comprises nearly all the ratepayers of the village, and if the board feels disposed it can recommend to the overseer, the calling of a special ratepayers meeting to act definitely. Accordingly, at the regular meeting of the board Monday evening next, the proposal will be considered and Secretary Reilly will be here to present the company's case before the members.

As the matter is probably the most important the board has ever been called on to deal with, it is to be hoped every member will be in attendance. All ratepayers whether members of the board or not, are invited to attend and every property owner should make a point of being present.

On the merits of the proposition, The Frank Paper is invited to render judgment until the company through its representative, Mr. Reilly has been heard. Without a doubt if the company comes even approximately near doing what it promises to do, the town could well afford to grant all the concessions mentioned if it has the power to do so or can obtain the necessary authority from the government but the property owners should approach the matter with the utmost caution and not permit themselves to be led into making any sort of an agreement until the company can show cause.

The FRANK PAPER is not prepared to say it will support any part of the company's proposals, nor does it at this time condemn any part of them. It will go to Monday's meeting with an absolutely open mind, prepared to be shown and to do what every other ratepayer will do the same. Then if the company can show that it is a bona fide proposition and is prepared to make good before the people of Frank are asked to bind themselves to this paper will be ready to give the proposal hearty endorsement as it feels satisfied nothing could insure to the advantage of Frank in larger measure than would the successful establishment of such an industry here, but we want no cat's-eyes; a stock jobbing proposition pure and simple would do more harm than good; but a bona fide industry would be worth all that is asked.

Turf Association Reorganized.

The Turf Turf Association reorganized for the season yesterday. The officers elected were: President, O. E. S. Whiteside; vice president, J. J. Fleutot; manager, W. A. Beebe; secretary-treasurer, Jas. Dougall; director, H. Pollok; H. N. Gater, Coleman; F. M. Collins, J. H. Farmer, Frank; C. Callan, Bellevue; H. J. Matheson, G. C. Drain, Blairmore. The matter of holding a general meet was left to a committee to arrange the date which will be in the near future.

THURSDAY, MAY 30, 1907.

It is a crime to be an Italian.

Editor Frank Paper:

Prior to, and during the last election, I expended both time and money in behalf of the Liberal party and truthfully believe, aided materially in securing the victory obtained at the polls in The Pass on that occasion.

I held at the time, the only wholesale liquor license in Blairmore, having invested therein every dollar which I had saved from working in the mines at Little. As the general public are aware, I purchased this business from James Padon, and during the time the latter conducted the same, nor since I have owned it, has there been a conviction recorded against said license for any breach or infraction of the law. This license is the oldest wholesale license in The Pass. One has since been granted in Little, Coleman, Frank and also one in Blairmore to people of influence. At the annual meeting of the board of licensee commissioners held in Frank Tuesday May 14th 1907, my application for a renewal was refused on the grounds that I was not a fit and proper person to conduct a wholesale liquor business. Upon my asking the commissioners for a reason why I should be deemed an unfit person to conduct such business, Mr. Baillie, one of the commissioners, replied that they had decided not to grant it, and would give no further explanation, although the Inspectors of licenses had reported favourably upon said application.

Several license holders in The Pass have paid fines for infractions of the law, several times, yet their licenses were renewed without question.

My licensed premises are the best in The Pass with one exception and comply with every requirement of the law. I am carrying a stock of Domestic and imported wines and liquors the depreciation on values of which will affect me seriously as the selection and purchase of same was made largely in view of the Italian patronage I enjoyed. The cellar on my premises cost upwards of four hundred dollars, but was constructed solely with the object of providing cold air instead of affording protection against same, hence will be of little value in another line of business.

Had I believed that government were ungrateful I need not have incurred the expense I have been subjected to.

Michel Rosse has a wife and five children dependent upon him for support. He has lost his license but he still lives in Sunny Alberta and he and his countrymen will meet you at the polls during the next election at least three hundred strong.

Thanking the liberal party for its treatment of one who was an ardent and faithful supporter.

Ernest I must admit there are still prophets abroad in the land, (even in the ranks of the conservatives) whose oft repeated predictions in my case at least, have been verified. I remain an Italian citizen.

Michel Rosse  
By publishing the foregoing The FRANK PAPER does not propose to change its policy of refraining from publishing communications and therefore, persons inclined to write letters to newspapers need not consider this in the light of a precedent established. The only reason for publishing this communication is to give opportunity of commenting upon it.

In doing this we shall say that we don't tidy it is not a crime to be an Italian but that obviously it is possible to be an Italian and not fail very far short of being a criminal. Michel Rosse may or may not have a just complaint to make against the way of his liquor license. This paper is inclined to think he has ground for complaint against the use of the license administration, considering the fact that no conviction

lay against his license and the only ground for the action was that he was not a fit person to have a license.

It clearly justifies the judgment of the commissioners but the fact remains that the people who have the other wholesale liquor license at Blairmore are no more fit than he and if the commissioners had not done so, they would have denied such licenses since it is patent one had as much right to have his investment protected as the other.

But it is Mr. Rosse's assumption that because he is an Italian he was not qualified to have a liquor license that we wish to comment on. In that Mr. Rosse proceeds on an entirely wrong hypothesis. By putting his claim on such a basis he indicates he is or was a liberal, not from principle, but from necessity. Every man and thorough ferretts all right to any sympathy from the public. If he supported the liberal party solely in the expectation of being granted special favor and is capable of uttering such a threat as that the commissioners in office could not be unscientifically won over to give the favor sought, the sooner he gets out of the party the better it will be for the party.

### SYNOPSIS OF CANADIAN NORTH-WEST HOMESTEAD REGULATIONS

Any even numbered section of Dundas and  
Alberta, excepting 8 and 26, not reserved, may  
be homesteaded by a single person, or by a  
family or any male over 16 years of age, to  
the extent of one-quarter section of 160 acres.

Entry may be made upon any section in the local  
district for the purpose in which the section  
is situated.

Each homesteader is required to perform the  
conditions connected therewith under one of  
the following plans:

(1) If the father (or the mother, if the father  
has died) has a permanent residence  
on the land, or if the land is owned by  
such person residing with the father or  
mother.

(2) If the father (or the mother, if the father  
has died) has a permanent residence  
on the land, or if the land is owned by  
such person residing with the father or  
mother.

(3) If the settler has a permanent residence  
upon farming land owned by him in the vicinity  
of the land, or if the land is owned by  
such person residing with the father or  
mother.

Six months notice in writing should be given  
to the Commissioner of Lands and Forests  
of intention to apply for patent.

W. W. Gandy,  
Deputy of the Minister of the Interior.

## NEW AGREEMENT

### FOR LETHBRIDGE

President Sherman of the United Mine Workers of America, District No. 18, states that the district board will confer with the operators of the Galt coal mines at Lethbridge, who have expressed their willingness to enter into a new agreement with the miners without the intervention of a conciliation board.

"I do not look for any trouble," said president Sherman, "although there may be some differences of opinion between the operators and the miners owing to the desire of the company to ignore the union as such and deal with the miners as individuals."

President Sherman stated that this was the only element of trouble they anticipated in connection with the obtaining of a new agreement at Lethbridge.

"In that event, however, the men will appeal, as a union, for a conciliation board, according to the terms of the new act. In any event there will be no cessation of work, which will proceed as usual in either event."

This is president Sherman's final statement of their plans for Lethbridge.—Edmonton Bulletin.

To Test Lord's Day Act.

The first prosecution in Alberta under the new Lord's Day act was

held at Claresholm one day last week when the C. P. R. was made defendant in a case charging violation of the act by permitting the switching of freight cars on Sunday. The case was tried before Justice of the Peace Hotchkiss and the railroad company was fined \$200. The case is being appealed and it is understood that in taking it to the higher court the company intends making a test of the law.

## Frank News in Brief

Buy your clothing of A. V. Lang, A. Goyette, Frank, Alberta, dealer in furniture and wall paper.

The fire department road race to have been run Victoria Day had to be postponed owing to the weather.

J. H. Naylor, formerly of the Burns company, has accepted a position with the George Cobley company.

Victoria day was quietly observed in The Pass. The unusual bad weather prevailed and there could be no sports but all business places closed and people generally took a day off.

The Burns company has purchased a lot at Blairstown and will build a new market building. The new place will be on the north side of the main street.

The condition of G. S. Roehfort is somewhat improved. Dr. H. S. McShane has come up from the city evening to consult with Dr. Malcolson on the case.

Dr. Warneek, the noted veterinarian of Pincher Creek, is in Montrose inspecting the herd of Buffalo recently purchased by the Canadian government, preparatory to the shipment of the animals to Alberta.

General Manager Moore and Vice President Silverton of the coal company have started the small-scale building movement in Frank this week. The improvement is so striking that it is a wonder more residents do not build walls.

S. J. Watson is preparing to afford the Frank people a treat this summer. He will open a fruit and confectionary store in the building recently vacated by J. H. Bricker, among other real summer joys, will dispose the famous Hazlewood ice cream, imported from Spokane.

Corporal Askey served notice on the owners of cows this week that the village regulation which prohibits the milking cattle to run at large is still in force. All the cows that could be rounded up were impounded and the owners required to pay the regular fee to get them out. Corporal Askey's action has served as a good lesson to most of the owners of cows as all but a few are now kept in town. The only but few still going in letting their animals run the village and these will shortly find it an expensive business as it is the intention to shut the cows up every day they are allowed to run in town. A fine fee of 25 cents is being charged for each cow.

As heard for weeks, it is not

enough that cows be kept out of the principal streets, the regulation forbids them running anywhere in the village and it will be enforced.

S. R. Morden, well known clothing traveler, visited Frank this week. Mrs. E. Lorraine left for France Sunday evening.

Mrs. J. McGowan will be at home Tuesday next from four to six.

Walter Fisher is back with the Burns company at the Frank shop.

The Great West Fuel & Trading company commenced building work.

At yesterday's gun club shoot George Crickshank won the gold medal.

"W. Bowker," manager of the "W. Bowker," spent the first of the week in The Pass.

See Grady. They have just received a nice line of aluminum ware, granite and enamel ware. Good bargains.

Archie McPhail, formerly master mechanic with the coal company here, is at Lille installing the machinery for the new power plant.

The lumber for the new C. P. R. station was unloaded in Frank the last of the week. It is expected the building will be started very shortly.

E. Dempsey of Spokane, owner of the coal property to the east of Bellevue has this week started a crew of men at work putting the coal in shape for shipment.

In an interview published in Winnipeg the manager of the Hillcrest mine declares that the new agreement is not satisfactory to his company and that the mine will never open under the conditions prescribed by it.

D. C. Coleman, formerly secretary to G. J. Bury when Mr. Bury was superintendent on this division of the C. P. R. and now manager of Frank C. P. R. has recently made marked success in the service of the C. P. R. He has worked up from one promotion to another until within the last few days he was appointed to a division superintendence. He will have charge of the Kootenay division.

The Saultierville baths are having a great run these days and there have been some remarkable results with rheumatic patients. In one case a Mr. Robinson of Clewesdale who had been at Balfour without getting any benefit, came to the springs in a badly crippled condition. He was unable to stand for a week. In another case a man who had been in from one of the courts on a stretcher. He was walking around in two or three days and is now apparently as well as ever.
